

Joint & Muscle Pain Relief

Steam therapy has often been used in the treatment of arthritis, rheumatism, joint stiffness and muscle spasms. As you relax in the Steamy Wonder™ Spa your body eliminates toxins at higher temperatures. This allows the body to easily reduce fats, toxins, and heavy metals. During a steam therapy treatment circulation increases which promotes healing in all your joints and muscles.

The deep moist heat of The Steamy Wonder™ Spa helps relieve pain by causing the blood vessels to dilate. This stimulates increased blood circulation and allows more oxygen to get to soft tissue injuries and sore muscles for faster healing.

Ideal for athletes and active people, your flexibility and performance will increase.

Advanced Treatments

All of "The Steamy Wonder™ Spa" benefits are greatly enhanced with the use of our specially prepared organic products and treatments. These blends of special muds, herbs and essential oils, all dramatically accelerate the relief of sore muscles, joint pain, and promote weight loss while they detoxify your body.

Ask your therapist to set an appointment for A Steamy Wonder™ Spa session and our special advanced treatment protocols.

Experience the most blissful, relaxing and rejuvenating spa treatment of your life.

- 1) Treatments are completely private, allowing you to more deeply relax and unwind on a soft comfortable massage table.
- 2) Your head and neck are out of the canopy and kept cool during a Steamy Wonder™ Spa treatment. This is more comfortable and avoids the dizziness and overheating often associated with saunas and steam rooms.
- 3) There are specific treatment protocols designed for the areas that are most important to you.
- 4) Every massage with the Steamy Wonder™ Spa is more comfortable, more relaxing, and more beneficial. You will become healthier, feel terrific and look years younger.

What People are Saying

"I was really stressed out, then my therapist gave me the steam treatment. I came out rejuvenated, and it was like a miracle! I couldn't believe it. All my tension was gone. I couldn't think of anything else, just that I was relaxed. I felt a sense of peace." C. Kendall, Kendallo's, Barberie, Ohio

"I have fibromyalgia and I no longer take any pain medication and I am not sore after a massage. Instead, I just get under the Steamy Wonder.™ I love it; it's been a life-saver." Lydia LA California

"I found it to be a very powerful healing tool. One client's neck and shoulders were so tight and sore that it was like touching a board when I started working on him. After 20 minutes in the Steamy Wonder™ Spa he walked out smiling and said his neck and back felt a lot better."
H. Hoenig, Day Spa Owner, Fort Madison, Iowa
